THE CUPRA BORN

*100% ELECTRIC. THE IMPULSE OF A
NEW GENERATION.*

*EXCELLENT PERFORMANCE, EXTREMELY
SUSTAINABLE, AND INCREDIBLY
INNOVATIVE, WELCOME TO THE
FIRST-EVER ALL-ELECTRIC CUPRA.*

SELECT YOUR TRIM

BORN V1

From £36,475*

KEY SPECIFICATION FOR THE V1 TRIM

Wheels and tyres

- 18" 'Cyclone' alloy wheels

Interior equipment

- Interior ambient lighting

Exterior equipment

- LED headlights with welcome home function and adverse weather function
- LED tail lights
- Rain sensing wipers

Infotainment

- 12" Navigation system
- 5.3" Digital Cockpit
- CUPRA Connect: Safety and Service, Remote Access and Online Infotainment
- Safety & Service: 10 year subscription included:
 - Private emergency call
 - Breakdown call
 - Service scheduling
- Remote Access: 3 year subscription included:
 - Battery charge
 - Remote climatization
 - Remote profiles and timers
 - Online Infotainment
 - Online traffic information
 - Online map update
 - Online route calculation

- Dynamic POI
- Online voice assistant
- Wireless Full Link smartphone integration

Seats and trim

- Front sport bucket seats in black SEAQUAL® yarn
- Copper interior detailing
- Front centre armrest

Functional and mechanical

- Rear view camera
- Sport suspension
- Drive Profile Selection (Range, Comfort, Performance, Individual)

Safety and security

- Adaptive cruise control with speed limiter
- Forward collision warning with automatic braking
- Driver Alert System: Tiredness recognition
- Lane assist
- Dynamic road sign display

Charging

- Mode 3 charging cable 32A

Model shown: CUPRA Born V1 in Glacial White

AND 12" CENTRAL DISPLAY
INFOTAINMENT SYSTEM

The CUPRA Connect services can be operated only by using available public communication technologies. Please note that due to development of these technologies, especially mobile networks, CUPRA cannot guarantee consistent availability in all countries for the duration of CUPRA Connect services. Possible changes in technology may cause permanent unavailability of them. *Recommended on the road price (ROTR) stated includes the basic price of the vehicle, 20% VAT, 1st year RFL and first registration fee (£55).

BORN V2

From £38,395*

Model shown: CUPRA Born V2 in Quasar Grey

AUGMENTED-REALITY
HEAD-UP DISPLAY

IN ADDITION TO THE V1 TRIM

Wheels and tyres

- 19" 'Typhoon' alloy wheels

Interior equipment

- Heated, leather-wrapped multi-function steering wheel with satellite buttons
- Heated front seats

Exterior equipment

- Dark tinted rear windows
- Heated washer nozzles

Infotainment

- Augmented-reality head-up display

*Recommended on the road price (ROTR) stated includes the basic price of the vehicle, 20% VAT, 1st year RFL and first registration fee (£55).

BORN V3

From £40,150*

IN ADDITION TO THE V2 TRIM

Wheels and tyres

- 20" 'Hurricane' machined aerowheels

Seats and trim

- Granite Grey Dinamica® seats:
 - 12 way electrically adjustable front seats
 - Pneumatically adjustable lumbar support
 - Massage function

GRANITE GREY
DINAMICA® SEATS ↓

*Recommended on the road price (ROTR) stated includes the basic price of the vehicle, 20% VAT, 1st year RFL and **first registration fee (£55)**.

*BIK value is based on WLTP CO₂ and applicable from 01/04/2022.

The Recommended 'On The Road' price includes delivery charge to Retailer and number plates, one year's Road Fund Licence at the 1st year rate (£0), and the new vehicle registration fee (£55). VAT is calculated at 20.0%. CUPRA may change RRP at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen CUPRA Retailer. Figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. Data correct at 04/10/2022.

Figures quoted are for a range of configurations and are subject to change due to ongoing approvals/changes.

E-BOOST

WHAT IS E-BOOST?

With e-Boost, you'll have a surge of extra power available whenever you need it. By ramping up the already phenomenal output of the CUPRA Born, it gives you a burst of adrenaline-charged performance.

HOW DO I ACTIVATE E-BOOST?

Whenever the impulse takes you, press the satellite button on the right of your steering wheel to unleash an extra 20kW of electrifying power – or choose the e-Boost option in your CUPRA Drive Profile menu. Better yet, simply 'kick down' on the accelerator to trigger e-Boost in the purest, most dynamic way.

WHAT'S INCLUDED WITH E-BOOST?

The e-Boost package includes our CUPRA steering wheel with satellite buttons, designed to put unbridled performance at your fingertips. Just as importantly, it comes with enhanced front brake discs – capable of reining in all that incredible power.

RANGE.

Up to 343 miles (combined weighted electrical range - WLTP)*

CHARGE.

5-80%:
– 7.5 hours wallbox
< 1hr rapid charge at public charging station*

SPEED.

0-62mph = 7.0 seconds*

*Based on CUPRA Born V3 77kWh 230PS. For further charging information refer to technical information pages.

CHARGING AT HOME AND ON THE GO

CHARGING AT HOME.

Charging your new CUPRA Born at home is likely to become part of your everyday routine, so we've made it simple.

There are two options for home charging, either via a traditional three-pin plug or a specially installed wallbox (The Mode 3 DC cable is standard equipment). Pod Point is CUPRA's recommended supplier to install a wallbox at your home and guide you through the complete home charging journey, from a pre-installation consultation to managing the home grant. A full demonstration will make sure you understand how to charge your CUPRA Born using your new Pod Point wallbox.

KNOW YOUR POWER SUPPLIES.

AC – Alternating Current
DC – Direct Current

WHY DO WE RECOMMEND A WALLBOX IS INSTALLED TO CHARGE YOUR CUPRA BORN?

While a three-pin socket can charge your new CUPRA Born at home, a home wallbox is recommended due to the high energy demands and the significantly faster charge time. A 7.2kW wallbox can charge your CUPRA Born three times faster than with a three-pin plug. A home wallbox installed by an accredited installer like Pod Point ensures that your car receives a full night of uninterrupted fast charge.

OZEV EVHS GRANT

You could be eligible for a £350 OZEV (Office for Zero Emission Vehicles) grant towards the cost of your home wallbox. CUPRA has partnered with PodPoint, check your eligibility [here](#).

CHARGING ON THE GO.

While you're out on the road, you can choose from a number of public charging points to top up your new CUPRA Born. Zap Map is a great website (zap-map.com) to locate suitable chargers across the UK.

COMBINED CHARGING SYSTEM (CCS).

AC & DC rapid charging, is available at most public charging stations. Rapid chargers are the fastest way to charge an EV vehicle and often found in motorway services or in locations close to main roads. The CUPRA Born is equipped with CCS (combined charging system), which supplies high power direct or alternating (DC/AC) to charge a battery to 80% quickly.

REGENERATIVE BRAKING.

This is the recovery of energy usually lost when braking. CUPRA Born optimises braking energy to prolong its battery life and not reduce your range.

VEHICLE EXCISE DUTY

All new vehicles are subject to a form of Vehicle Excise Duty (VED) based on the type of fuel the vehicle uses and its carbon dioxide (CO₂) emission level, measured in grams per kilometre (g/km). The table below illustrates the duty you will pay based on the DVLA bandings.

The standard rate for Petrol and Diesel is £165 and £155 for Alternative Fuel Vehicles. Please be aware vehicles with a list price (RRP), including options, higher than £40,000 will incur an additional £520 a year in vehicle tax for Petrol and Diesel cars, and £510 for Alternative Fuel Vehicles, from the second time the vehicle is taxed. For full details please refer to gov.uk/vehicle-tax-rate-tables

12-MONTH ROAD FUND LICENCE (RFL) RATE FOR PETROL, DIESEL AND ALTERNATIVE FUEL VEHICLES

Cars registered on or after 1 April 2022

CO ₂ g/km	1st year rate Petrol / Diesel	1st year rate Alternative Fuel Vehicles (AFVs)
0	£0	£0
1	£10	£0
51	£25	£15
76	£120	£110
91	£150	£140

BENEFIT IN KIND TAX

HOW TO CALCULATE YOUR LIABILITY

The BIK percentage value is based on the CO₂ emissions of the vehicle for the current tax year 2022/23.

BIK calculation example: CUPRA Born V1 58 kWh 204PS

P11D value (OTR price less RFL and first registration fee)	£ 36,420.00
--	-------------

WLTP CO ₂ emissions (g/km)	0
---------------------------------------	---

Company car BIK tax based on CO ₂ emission level	2%
---	----

Taxable BIK (for 2022/23 tax year): 2% of £36,420.00	£728.40
---	---------

Annual Company Car Tax 2022/23 (@20% Income Tax)

20% of £728.40	£145.68 per annum
----------------	-------------------

Monthly Company Car Tax 2022/23 (@20% Income Tax)

£145.68 divided by 12	£12.14 per month
-----------------------	------------------

YOUR TYRE LABEL

They may not be the first part of your CUPRA you notice, but your tyres play a vital role in keeping you on the road. Your EU tyre label tells you everything you need to know.

Due to the variation of tyres that may be fitted during production, the configurator will show multiple tyre labels. It is not possible to select a specific tyre when ordering a vehicle.

You'll see more in-depth information on your tyres while configuring your car. Click [here](#) to start building your CUPRA now.

ENERGY EFFICIENCY

This is a measure of 'rolling resistance' – in other words, the amount of energy lost through motion. The lower the rolling resistance, the lower your energy consumption, with tyres rated as class A being the most efficient.

WET GRIP

Rigorous testing ensures your tyres give great handling and performance in all conditions. Wet grip specifically measures how well you can brake in wet conditions, with grade A giving the shortest stopping distance.

EXTERNAL NOISE

Tyres are carefully measured so you know exactly how much noise they'll make while driving. If decibels don't mean a lot to you, don't worry. Each tyre also falls into a noise class-A being the quietest and C the loudest.

WARRANTIES

o Optional

		All trims	Basic price	VAT @20%	Recommended retail price	
EXTENDED WARRANTIES	When you buy a new CUPRA it is covered by a three-year/60,000 miles manufacturer warranty. You can extend this cover, with a four-year/75,000 miles or five-year/90,000 miles CUPRA Extended Manufacturer Warranty, and get the same level of cover. It is fully transferable to a new owner if you decided to sell your CUPRA.	4 years/75,000 miles	o	£220.83	£44.17	£265.00
	Please note: The CUPRA Extended Manufacturer Warranty is only available at the time of ordering a new CUPRA.	5 years/90,000 miles	o	£370.83	£74.17	£445.00
<p>Extended Warranty for existing owners: If your existing warranty is about to expire, or if you haven't already got one in place, our Extended Warranty* is designed to protect you. For a quote, please speak to your CUPRA Retailer.</p>						

THE CUPRA WARRANTY

Three-year warranty

All new CUPRAs registered in the UK come with a three-year/60,000 miles warranty, which protects your car against the failure of most mechanical and electrical components due to manufacturing defects. This comprises a two-year manufacturer's warranty with unlimited mileage, plus a further one year up to a maximum of 60,000 miles (whichever is soonest).

Retailer warranty

Should the mileage exceed 60,000 miles within the first two years, the manufacturer's two-year warranty will still be valid. If an additional warranty for subsequent years or higher mileage is desired, it may be purchased from an authorised CUPRA Retailer or repairer, however, this additional warranty must be purchased before the mileage reaches 60,000. Cover is subject to the car being serviced and maintained according to the manufacturer's technical guidelines. Full details of the three-year warranty are available from your CUPRA Retailer or repairer.

*SEAT Financial Services is a trading name of Volkswagen Financial Services (UK) Limited. CUPRA Extended Warranty is sold and administered by Lawshield UK Limited and underwritten by AWP P&C SA. Terms, conditions, and eligibility criteria apply.

WARRANTIES

CUPRA EXTENDED MANUFACTURER WARRANTY

If you take out a CUPRA Extended Manufacturer Warranty before your new car is registered, you'll get exactly the same level of cover as the three-year warranty, but for up to five years. You can choose a CUPRA Extended Manufacturer Warranty to last until the end of the 4th year/up to 75,000 miles or until the end of the 5th year/up to 90,000 miles (whichever is soonest). Please note: CUPRA Extended Manufacturer Warranty products are only available at the time of ordering your new CUPRA.

BATTERY WARRANTY

The batteries for battery electric vehicles (BEV) are warranted against all defects in materials and workmanship for eight years or up to 100,000 miles, whichever comes first. A gradual reduction in battery energy content over time is a normal feature of high voltage battery and does not constitute a warrantable defect. For BEVs, the battery energy content degradation warranty lasts for eight years or up to 100,000 miles, whichever comes first. Where the battery energy content of the high voltage battery

is measured by a CUPRA authorised repairer and is found to be less than 70% during the warranty period, then it will be repaired or replaced under warranty subject to conditions. For full details, please go to the CUPRA UK website.

THREE-YEAR PAINT WARRANTY

The paintwork of all models featured in this price list is covered against manufacturing defects for a period of three years. Naturally, the vehicle must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your authorised CUPRA Retailer or repairer for full warranty details.

TWELVE-YEAR BODY PROTECTION WARRANTY

The internal body sections and panels of the models featured in this price list are covered against corrosion originating from internal cavities for twelve years. Naturally, the vehicle must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your authorised CUPRA Retailer or repairer for full warranty details.

CUPRA PARTS WARRANTY

CUPRA parts and accessories supplied after new vehicle delivery are covered by our 24 months parts warranty.

CUPRA ROADSIDE ASSISTANCE (INCLUDING EUROPEAN COVER)

Any new CUPRA purchased and registered in the UK from an authorised CUPRA Retailer, is covered free by CUPRA Assistance (including European cover) for roadside repairs or recovery to an authorised repairer for a term of two years. Terms and conditions apply.

SPECIFICATIONS

Specifications refer to Model Year 2023. While CUPRA makes every effort to make sure that specifications are accurate at time of going to press (10/2022), you should always check details with your CUPRA Retailer as there may have been changes in view of CUPRA's policy of continuous product improvement. The right is reserved to change specification and colour at any time. The information in this price list can therefore be given as guidance only.

CUPRA is committed to a policy of continuous product development and reserves the right to make changes to specifications, colours and prices without notice. The information in this brochure can therefore be given as guidance only. While CUPRA makes every effort to ensure that specifications are accurate at the time of publication, you should always check with your authorised CUPRA Retailer for the latest information. Due to limitations of the printing process, the colours reproduced in this brochure may vary slightly from the actual paint colour and material. This vehicle and all its parts, as well as the original spares, were designed according to the Legal Regulations governing the prevention and minimisation of Environmental Impact, through the use of recycled/ recyclable materials, with measures taken to achieve suitable recycling for the conservation and improvement of environmental quality.
