HOW TO OBTAIN ASSISTANCE IN THE UNITED KINGDOM

If your vehicle has a breakdown in the United Kingdom, please follow these simple steps:

- Call us on **0330 053 0624**
- Advise the operator that you have CUPRA Roadside Assistance
- Provide your details to the operator
- Advise the operator of the location of your vehicle and the nature of any issue, and provide any other information requested by the operator
- If your cover has lapsed, refer to the back cover for how to extend your CUPRA Roadside Assistance

HOW TO OBTAIN ASSISTANCE ABROAD

European Motoring Assistance applies to vehicles registered with the relevant Vehicle Licensing Agency and operates throughout the European territory.

To obtain help in the event of a breakdown, and in our absolute discretion, in the event of an accident, fire or theft, or if the only qualified driver is medically unfit to drive, please call CUPRA Roadside Assistance, state that the vehicle has European Motoring Assistance and give the following information:

- Your name
- The model and registration number of the vehicle
- Your location and telephone number – if you are on a motorway see also 'Breakdowns on French motorways' below

BREAKDOWNS ON FRENCH MOTORWAYS

Motorways in France are privately managed, so if you break down on a French motorway or motorway service area, CUPRA European Roadside Assistance cannot arrange for assistance to be sent to you.

1. If you can get to an emergency telephone box, please press the button and the police will send assistance to your location.
2. If you are using a public phone, please dial 17, or from a mobile phone dial 112.
3. Once you have been towed off the motorway/service area, call the CUPRA European Roadside Assistance 24-hour helpline for further assistance.

ROADSIDE ASSISTANCE BREAKDOWN CALL

Your B-Call* function, where available, can be used to contact the Roadside Assistance Call Centre, sending vehicle data to enable them to support you in a breakdown situation. This includes the following:

- Vehicle information
- Location of vehicle
- Vehicle data such as fuel level, battery level, oil level etc.
- Any warning lights displayed

This information can be used to help fix the vehicle and suggest the route to the nearest repairer and/or fuel station/charging station.

To use this function, download the My Cupra App and register your CUPRA.

*This function will only work if your CUPRA is connected to the My Cupra App.
